SUMMARY

Proactive third-year Computer Science student at Multimedia University specializing in Cybersecurity (CGPA: 3.13). Combines a strong academic foundation with hands-on professional experience in DevOps, web security, and infrastructure management. Actively participate in Capture The Flag and Competitive Programming events.

Eager to contribute technical skills and a problem-solving mindset to a hands-on internship.

SKILLS

- **Programming Languages:** Python, C++, Java, HTML/CSS, JS/TS, PHP, Bash, SQL
- **Technologies:** WordPress, Vue.js, Django, Git, Docker, Regex, Neovim
- **Networking & Security:** Cisco Packet Tracer, GNS3, Wireshark, Nmap, Burp Suite
- **Operating Systems:** Linux, Windows, Virtual Machines (HyperV, VMware, VirtualBox)

WORK EXPERIENCE

IT Security Analyst Intern

Kuala Lumpur, MY

Infinitely Digital Solutions and Consultancy

Jul 2025 — Oct 2025

- Spearheaded a large-scale migration of over 20 WordPress/WooCommerce sites to a new, multi-server environment, handling configurations for PHP-FPM, MySQL, SSL, and caching to optimize performance.
- Restored 100% of client sites within 24 hours by contributing to a critical incident recovery and rollback process following a server cluster failure.
- Strengthened infrastructure security by deploying a containerized mail server with Docker and implementing robust email authentication. Enhanced DNS security by configuring DNSSEC and Cloudflare WAF.

PROJECTS

Cryptographic Cipher Visualization Tool | Python, PySide6 (Qt)

github.com/sjz30/cipher

- Developed a desktop GUI application to encrypt, decrypt, and visualize the processes of the Playfair and Rail Fence ciphers.

Algorithmic Problem Solving Portfolio | Python

github.com/sjz30/codes

- Developed a curated collection of 200+ solutions to challenges from platforms like Codeforces, LeetCode, Codewars, Project Euler and Advent of Code.

Penetration Testing & CTF Portfolio | Wireshark, Nmap, Burp Suite

github.com/sjz30/ctf

- Authored detailed reports for various penetration testing challenges (TryHackMe, Hack The Box), demonstrating a systematic security assessment methodology.

EDUCATION

Multimedia University

Cyberjaya, MY

Bachelor's of Computer Science (Cybersecurity)

Mar 2023 — Aug 2026

- Cumulative GPA: 3.13/4.0 | Dean's List - Oct/Nov 2024
- Relevant Coursework: Operating Systems, Computer Networks, Network Security, Cryptography and Data Security, Ethical Hacking & Penetration, Digital & Computer Forensics, Blockchain & Smart Contracts

EXTRACURRICULAR ACTIVITIES

Competitive Programming Competitions

- Team Lead - CodeNecton 2022, 2023, 2024
- Solved algorithmic problems focusing on data structures and dynamic programming using Python and secured a Top 10 finish among 50+ competing teams.

OTHER

- **Languages:** Mandarin (Native), English, Bahasa Malaysia, Cantonese
- **Hobbies and Interests:** Chess, Video Games, Swimming
